

Build Better, Reduce Costs and Grow Profits

Solarbord is a radiant barrier panel that offers home buyers savings as long as they own the home. Solarbord sheathing panels are strong, solid and consistent from panel to panel. Backed by a 25 year warranty Solarbord has no core voids or knots and will not delaminate. Solarbord carries the APA grade stamp assuring built-in performance. Solarbord is a Certified National Green Approved product. Look for the Solarbord name on the face of every panel.

Today there are even more great reasons to specify Solarbord. Solarbord is produced from fiber that comes from responsibly managed forests and is available with SFI® Chain of Custody certification. Our manufacturing operations are located close to markets. Solarbord, like all Norbord OSB products, do not contain any added urea-formaldehyde resins.

Solarbord is an Energy Star Partner
