

NEWS RELEASE**Norbord Achieves Safety Milestones**

GUNTOWN, MISSISSIPPI (June 11, 2010) – Norbord Inc. today celebrated the achievement of three significant safety milestones at its oriented strand board (OSB) mill in Guntown Mississippi.

1. Approved as an OSHA Voluntary Protection Program (VPP) Star Site, effective March 25, 2010. VPP represents OSHA's premiere recognition programs for employers and employees who have implemented exemplary workplace safety and health systems.
2. Certification to Norbord's Safety Star Status. The Safety Star program is a company-specific program that combines OSHA's VPP Star requirements with Norbord's own safety expectations.
3. Completion of one million hours without a lost time safety incident.

"Every member of the Guntown team is to be recognized and thanked for their outstanding commitment to working safely," said Barrie Shingleton, President and CEO of Norbord. "I believe a strong safety culture is a good indicator that all operating systems are well-managed in a mill. This is certainly true in Guntown and I congratulate the team on its success. We will look to them for guidance and leadership as we work to achieve Norbord Safety Star status at all Norbord mills worldwide."

Built by Norbord in 1995, the Guntown mill has 120 employees and annual production capacity of 450 MMsf – 3/8".

Norbord Profile

Norbord Inc. is an international producer of wood-based panels with assets of \$1.0 billion, employing approximately 1,950 people at 14 plant locations in the United States, Europe and Canada. Norbord is one of the world's largest producers of OSB. In addition to OSB, Norbord manufactures particleboard, medium density fibreboard (MDF), hardwood plywood and related value-added products. Norbord is a publicly traded company listed on the Toronto Stock Exchange under the symbol NBD.
