### Sustainable Forestry Initiative® (SFI) 2015-2019 Fiber Sourcing Standard

### Sustainable Forestry Initiative® (SFI) 2015-2019 Fiber Sourcing Standard Appendix 1: Rules for use of SFI Certified Sourcing label

Management is responsible for ensuring the management system meets the Requirements. Our responsibility is limited to expressing an opinion as to whether the Requirements were met, based on our assessment. The SFI standard can be found at [www.sfiprogram.org](http://www.sfiprogram.org).

Our assessment was conducted in accordance with the ISO 17021 management system auditing standard and, accordingly, included examining, on a sample basis, evidence supporting management's assertion that the Requirements were met and performing such other procedures as we considered necessary in the circumstances. We planned and performed our work in order to obtain limited, rather than absolute, assurance with respect to the information examined. We believe our work provides a reasonable basis for our opinion.

In our opinion, the management system was suitably designed to provide limited assurance that the Requirements were met, in all material respects, as of June 1, 2020.
